We will discuss and examine the building blocks of high performing teams as well as our four pools energy as we strive to take care of ourselves. Filled with energy and stories and examples, this is knowledge the servant leaders of our Minnesota counties can use right away.

What Counties Can Do to Help Ensure an Accurate 2020 Census

Susan Brower, State Demographer

Beginning in July 2017, the Census Bureau will invite counties to participate in the Local Update of Census Addresses (LUCA) program. This is Minnesota's opportunity to provide feedback to the Census Bureau, to ensure that the 2020 census address lists are accurate and up-to-date. Minnesota residents living at addresses that are not properly updated through the LUCA program cannot be counted toward a county's 2020 count, even if they are rightful residents of that county. The geographic activities supporting the 2020 Census will have far-reaching consequences, as they will impact population counts and funding for the coming decade. In this session, Susan Brower will describe how the LUCA program works and discuss how counties can collaborate to improve the quality of census data for the decade ahead.

2:00 – 3:00 p.m.

Use of Electronic Assessing Techniques
